

Active Investing: Advanced Technical Analysis

ONLINE COURSE

WHY SHOULD I PARTICIPATE?

Learn from history

History repeats itself, and the market creates history every day. Understanding how to profitably use history is what technical analysis is all about.

Experience intensive learning

This course is designed to reduce the ambiguity associated with investment decisions through the use of advanced technical analysis techniques.

Master your skills

This is the pinnacle of learning at Investools. The skills you learn here will be the foundation for your trading success and will give you a vast array of investment strategies to utilize.

Get an outstanding education

Top-level instructors, all of whom actively trade the strategies they teach, deliver instruction. Award-winning technical analysis tools support your learning experience.

Take the course online, at your convenience

Using an audio/video Webcasting application, you can participate in six weeks of two-hour online sessions wherever you have Internet access.

WHAT WILL I LEARN?

- Trading rules
- System design
- Technical patterns
- Prophet patterns
- Trending indicators
- Fibonacci retracements
- Candlesticks
- Oscillators
- Trade setups and simulations

WHAT'S INCLUDED?

- 12 information-packed interactive sessions spanning a six-week period. Each session runs approximately two hours, twice a week.
- After the 12 live sessions are completed, students may spend an additional eight weeks to cover all the material by viewing the recordings, for a total of 14 weeks of Advanced Technical Analysis education.
- State-of-the-art, Web-based tools.
- Access to an online community of instructors and other student investors.
- Control of when, where and how you learn.
