

# Futures

## ONLINE COURSE

### ➤ WHY SHOULD I PARTICIPATE?

#### Expand Your Knowledge

The exciting new Futures Course can take you to the next trading level, as well as provide another avenue of success and profit during these volatile times. When investors see volatility, they think risk. When futures traders see volatility, they think profits. If you want to increase leverage and liquidity in your trading without worrying about time decay, watch lists, searching for stocks or performing fundamental analysis, this course is for you.

You will even learn to trade the illusive “premarket” and “after-hours” markets, enabling you to trade nearly 24 hours a day. Futures also opens up new markets that you haven’t been able to trade before like oil, gold, soybeans, bonds, currencies and much, much more.

#### Risk Management

The course teaches multiple systems and techniques for trading futures in the short term, taking advantage of volatility rather than fearing it. Each student learns how to manage risk and maximize reward potential in a precise, repeatable methodology and easy-to-follow instruction.

Your education will help you to become more agile and prepared to take advantage of economic changes and news events. Many futures traders found terrific success in 2008 trading oil prices higher and then turning around to profit from the fall of oil. You learn the necessary techniques to better prepare you for 2009 and its unique challenges.

#### The Goal is Application and Success

Despite the solid coursework and methodology, a course without application is like a sports car never taken out of the show room. Our goal is to give students the tools and skills to drive their own futures sports car onto the open road. Application and execution of the systems and portfolio management are taught in our interactive futures virtual workshop and daily in the “Futures & FX Daily Commentary.”

### ➤ WHAT’S INCLUDED?

- Futures Online Course
- Futures Trading Rooms
- Futures Virtual Workshop
  - 12 live interactive sessions over 6 weeks
